

Potential Community Partners for #EyesontheChild Campaign

Example Email:

Hi [First Name or Organization Name],

I hope this message finds you well.

Prevent Child Abuse Indiana is launching a community-wide **Water & Internet Safety Campaign**, and we'd love to partner with you to help keep kids safe this season.

As part of this initiative, we are offering **free Water Watcher Badges** for you to share with families in your community. These badges help remind adults to actively supervise children around water — whether at the pool, lake, or marina — and can play a critical role in preventing drowning. In addition to distributing badges, we are also open to **collaborating on community events** and providing resources and education to support your efforts.

If you'd like to request Water Watcher Badges or explore opportunities to host a joint event, simply reply to this email or contact me at [Your Email] / [Your Phone Number].

Thank you for your commitment to community safety — we look forward to our potential collaboration.

Best,
